DETAILED ACTION

Allowable Subject Matter

Claims 2-16 and 18-33 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent claims 14, 30, and 33 state that both the state trace data and the associated quality profile are updated as the workpiece progresses through the process flow. Prior art references, such as Sonderman et al. (US 6,650,955), teach the monitoring and updating of the state trace data as the workpiece progresses through the process flow, but teach creating a quality profile after the completion of the process flow (see Fig. 3, Ref. 32). The limitation of updating the *quality profile* as the workpiece progresses through the process flow has not been found, taught, or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
